

Dear Madam / Sir,

Monier Roofing, part of BMI Group, is the world’s largest manufacturer of pitched, flat and waterproofing solution. The company has operations in more than 40 countries, continental technical centers and over 150 manufacturing facilities worldwide. The company has years of experience in terms of quality and performance. Headquartered in **London**. Present in India since 1997, Monier Roofing formerly known as Lafarge Roofing.

We have been making pitched roof products for almost a century, and our expertise, developed over this extended period of time, covers all steps of the manufacturing process and makes us a pre-eminent roofing manufacturer.

We are one of the few manufacturers to offer both a comprehensive range of concrete and clay tiles for pitched roofs, environmentally friendly options, and complementary roofing components designed to cover various functional aspects of roof construction.

BMI Group roofing systems are designed and tested to work perfectly together, so we can ensure a complete solution for every type of construction.

Please go through with our Tiles profiles and pricing details.
